

## 10 Digital Images Main Page Script

IDEA: A teacher is giving a lesson on photography, both old school and new school, a person gets a picture developed in the 80's and then now...big difference...take existing class video and use template

Teacher: Today students, we are starting a lesson on digital photography. Does anyone know any differences in photography today that we didn't have 20 years ago?

Student 1: You couldn't always take pictures with your phone?

Teacher: Well no, Willis, not at all. In fact, in the 80's and 90's you had to take pictures on a camera, take your film in to a store to get developed, and then get your pictures days later.

Student 1: Wow, I can't even believe that.

Teacher: Well, imagine...

**(30 yrs. ago)**

Boy: here's my film, can you please develop my pictures?

Clerk: Why of course. It will be one week.

**(Back to the present classroom)**

Student 2: Today we can get pictures in a day.

Teacher: Right, today if you want to print out a digital image, you can literally get it printed within an hour or less in many stores or right from home.

**(Present Day)**

Man: Can you please develop my pictures?

Clerk: Why of course, it will be one hour.

**(Back to the present classroom)**

Student 2: My mom prints pictures out at home

e

Teacher: Yes, many people have printers that allow them to print images at home

Student 1: Can you print pictures at my house?

Teacher: Well, maybe Willis, do you have a printer?

Student 1: I don't think so

Teacher: Well, Willis, let's learn more about digital images and you'll find out more about what you need to print out images.

Teacher: We will be learning about searching for digital images, editing images, online slideshows, and creating infographics.

Student 2: This is going to be cool

Student 1: I can't wait!
