Remote Learning with Flipgrid

March 13, 2020

As educators, learners and families are impacted by COVID-19, know that our entire team is always here for you. Inspired by the ways you foster community beyond the classroom, we have curated a collection of resources to help you and your peers.

Remote Learning with Flipgrid PDF

This simple one page PDF contains all the information you need to get started using Flipgrid in a remote learning environment. Click the image to download and share!

Remote Learning on Flipgrid

Flipgrid is a free, simple way to foster short video-based discussions on classroom topics. Educators, learners, and families can use Flipgrid at school or at home to stay connected and share their continued learning experiences. **Any educator can sign up at www.flipgrid.com.**

Flipgrid Things You Might Not Know About

The New Flipgrid Video Editor is Fantastic

- Works on Chrome (this thing is great on a Chromebook) as well as any web browser, iOS and Android.
- On mobile, you can flip the camera as you record. Perfect for switching from a scene or document to your noggin.
- In August Flipgrid updated the video editor and made it one of the best video editors on Chrome and its free!
- Record and edit multiple scenes of video. Add text, filter, emojis and a whiteboard all which can be toggled on and off.
- Teachers can access this from the Shorts feature. Students can access this from any grid they have access to. I suggest making them a video creation grid.
- Students can save the videos they create externally by heading to <https://my.flipgrid.com/> More information: <http://bit.ly/3aOoBkh>
- 5 quick tips: <http://bit.ly/2Q6lL21>
- About the shorts app: <http://bit.ly/2W8sBbj>

Camera Shy Students?

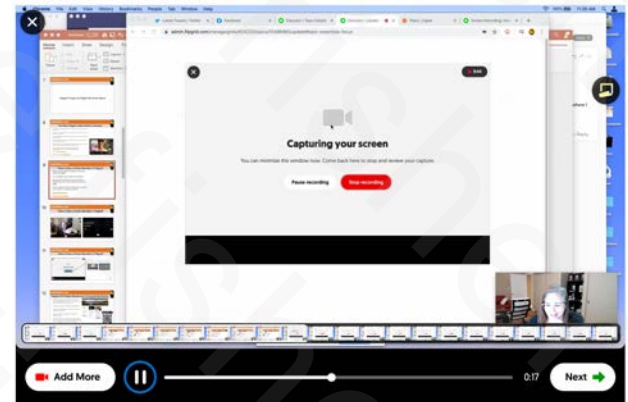

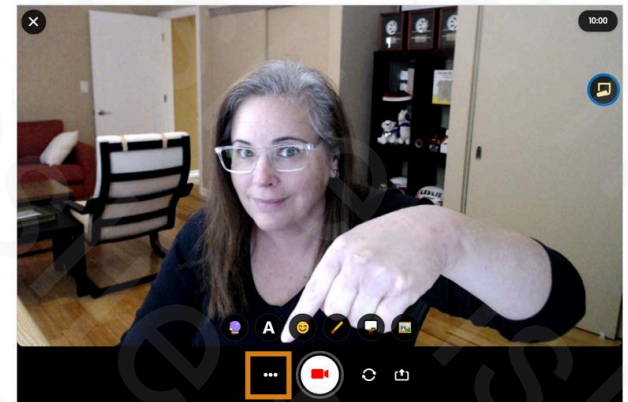

- There are so many ways to help a camera-shy student record to a grid without showing their face.
- They can cover up the camera, but they also can creatively:
 1. Hide their face with the pixel filter
 2. Cover their face with an emoji
 3. Add a custom sticker and use it to hide their face
 4. And this great tip from Ann Kozma. Use the Whiteboard feature, add a custom sticker, add some text and then record
- Flip the camera and they can record something else when they talk.

There is Now a Screen Recorder in Flipgrid!

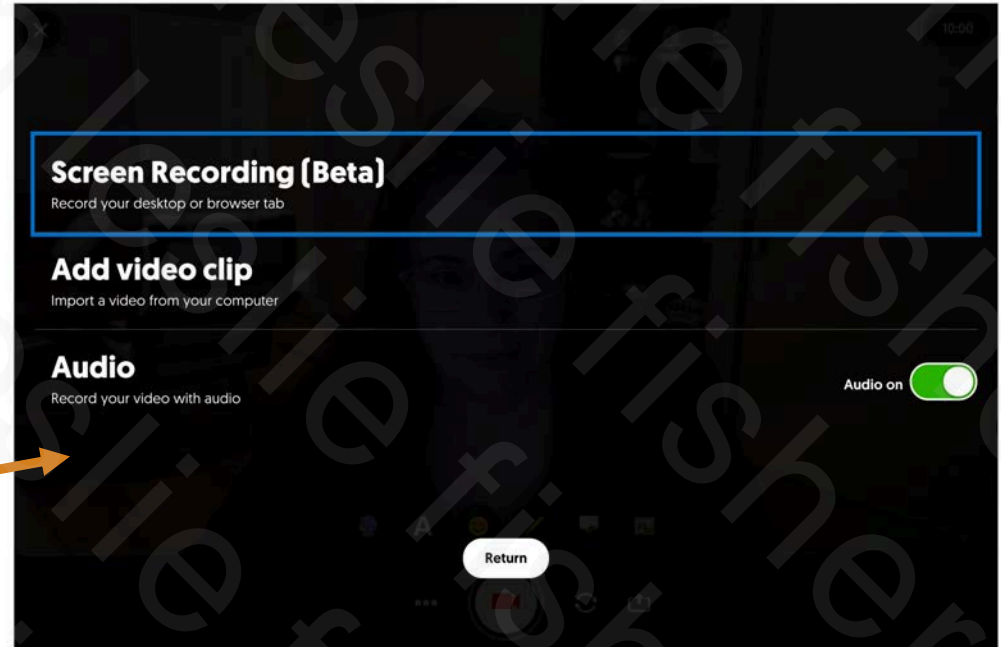

- Flipgrid recently added the ability to record your screen into Flipgrid.
- This is available to both teachers and students
- Not only will it record your screen it will add an additional picture in picture window to show your noggin
- You can choose to share an entire screen, a portion of the screen or an individual web tab
- You can also pause and resume recording
- Keep in mind, Flipgrid recorder lets you have multiple clips so you can easily switch back to just recording yourself or something else in the next clip

There is Now a Screen Recorder in Flipgrid!

The image shows a Zoom meeting interface. The main window displays a screen recording overlay from Flipgrid. The overlay is a light gray box with a close button (X) in the top-left corner and a timer showing 10:00 in the top-right. In the center, there is a video camera icon, the text "Capturing your screen", and a sub-message: "You can minimize this window now. Come back here to stop and review your capture." Below this, there are two buttons: "Pause recording" (white) and "Stop recording" (red). The background of the Zoom window shows a presentation slide titled "Flipgrid: Things You Might Not Know About" with a list of 12 items. The Zoom status bar at the bottom indicates "admin.flipgrid.com is sharing your screen." with "Stop sharing" and "Hide" buttons. A small video thumbnail of a woman with glasses is visible in the bottom right corner of the Zoom window.

There is Now a Video Upload Tool in Flipgrid!

- Some students love putting together cool video projects and smash apps to export a video and then share that video as a topic reply on Flipgrid
- Now you can! Click on the upload video option on the screen recorder
- .MOV .MP4 and .WEBM file types supported
- <https://bit.ly/2SNGZDn>

Shorts!

- Shorts provides an option for an educator to record a video in Flipgrid using its awesome video editor with its awesome feature set without having to place the video in a grid or topic.
- Short videos can easily be downloaded, embedded and shared

Flipgrid AR Display Responses Via Augmented Reality

- Any response on a grid you created can have a QR code created to highlight just that response. This has been a great feature to share responses with parents, etc.
- All of those QR codes are now Augmented Reality Ready!
- Simply run the Flipgrid App and select the join / code option. It will open up your camera
- Scan over the QR code and watch the response play in Augmented Reality.
- The possibilities for this are endless! For example, imagine a code on an assignment where the teacher appears with some tips, tricks, suggestions, extra coaching, teaching, etc.

The screenshot displays a video player for a student named Adam Parker Goldberg. The video title is "Leave a Vibe!". The video content shows a young man smiling in front of a cityscape. The video player includes a play button, a progress bar at 0:01, and standard video controls. A gold star icon in the top right corner of the video player indicates it is a featured video. Below the video, the student's name "Adam Parker Goldberg" is displayed, along with his display name "Adam Parker G.", a location "Hello from Flipgrid Studios!", and a timestamp "Jul 8, 2019 12:44pm" with "154 views". A "Flip Code: 1024b8bc" is also visible. To the right of the video player is a feedback panel with tabs for "Feedback", "Edit", and "Share". The "Feedback" tab is active, showing a "Video Feedback" section with a green plus icon and a note "This video will only be available to Adam Parker G.". Below this is a "Grading Rubric" section with a score of 0 and two criteria: "Ideas" and "Performance". A "Comments" section is also present with a text input field and a "0 / 1024" character count. At the bottom of the feedback panel are "Share Feedback" instructions and buttons for "Copy Feedback Link" and "Email Feedback". At the bottom of the entire interface, a yellow-bordered box shows the video's status in a list: a gold star icon, the student's profile picture, name "Adam Parker G.", "227 views", the date "Jul 8, 2019", and buttons for "Active", "Share", and "Actions".

Student Reply Videos: Spark a Video

- Have a student reply in a grid that you think would be great for an entire new topic?

Student Reply Videos: Leave a Vibe

- Vibes are featured educator comment seen by all students and a way to recognize a student
- Open a student's video and then click Leave a Vibe at the top
- You can enter up to 16 characters which will then be displayed at the top when students watch the video
- <https://bit.ly/2LbUwjF>

The screenshot shows a video player for a student named Adam Parker Goldberg. The video title is "I work on the grid" and the student's display name is "@AdamShortShorts". The video has 0 likes and 225 views. The "Leave a Vibe" form is open, showing the following fields:

- Vibe:** A text box containing "You Rock Adam!!!".
- First Name:** Adam Parker
- Last Name:** Goldberg
- Display Name:** Adam Parker G.
- Email Address:** adam@flipgrid.com
- Title:** Hello from Flipgrid Studios!
- Link:** Flip Code: 1024b8bc

The "Vibe" field is highlighted with an orange box, and an orange arrow points from the text "You Rock Adam!!!" in the video player to the "Vibe" input field.

MixTapes

- You can take any video response from any of your grids, set them in the order you want and make a mix tape
- MixTapes are read only and can be shared with anyone or locked down with a password.
- When someone views the MixTape there is an option to follow it which email them when you add new content to the MixTape
- <http://bit.ly/2x4wSSs>

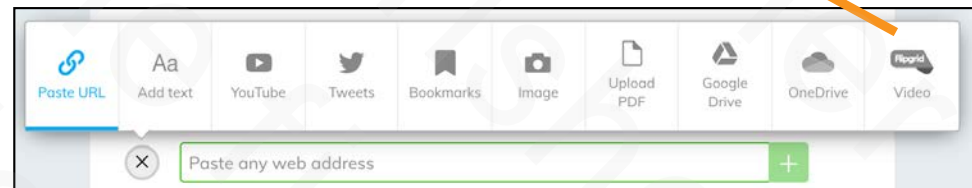

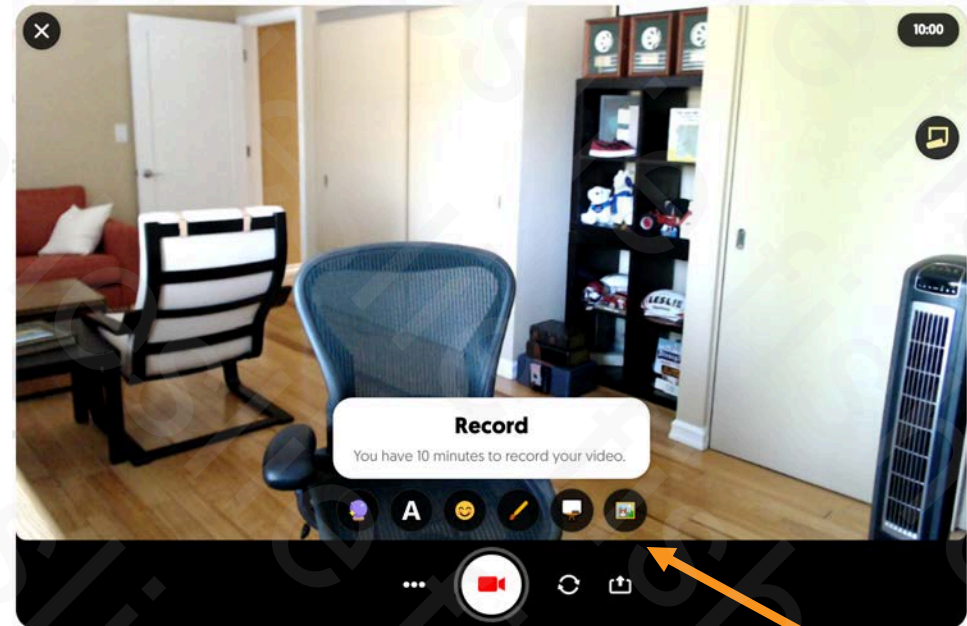

The screenshot shows a Flipgrid video player interface. At the top, the Flipgrid logo is on the left, and navigation links for 'REMOTE LEARNING', 'FLIPGRID RESOURCES', 'NEWSLETTER', 'ACTIVITY CENTER', and 'MORE' are on the right. A search bar is also present. The main content is a video titled 'Rocking Out with MixTapes' with a headphones icon, dated February 26, 2020. The video player shows a grid of eight video thumbnails from a 'Create a MixTape' session. The thumbnails are labeled with names and dates: Michael D (Feb 15, 2017), Michael H (Jan 22, 2017), Tisha P (Apr 4, 2017), Kerri K (Feb 14, 2017), and two others. A play button is visible in the bottom left of the video player. Below the video, there is a text introduction: 'Introducing MixTapes, the raddest way to share mic drop moments with the ones that matter.' followed by four bullet points:

- You pick what goes on your MixTape (any video Response from any of your Grids).
- You set the order you want Responses to play.
- MixTapes are view-only and can be shared anywhere.
- Your community can Follow your MixTapes and receive an email when new videos are added.

Microsoft Teams Integration for Flipgrid

Introduction

Amplify student voice and strengthen classroom community by including Flipgrid in your Microsoft Teams courses. With the Flipgrid integration, your Grids, Topics and videos will be readily available, placing student discussion alongside all other class resources.

Getting Started

To use the Flipgrid integration for Microsoft Teams, you will need:

A Flipgrid account

- Please visit info.flipgrid.com/signup to create your free account if you don't already have one.

A Grid or Topic you would like to connect with Microsoft Teams

- Choose an existing Grid or Topic, or create a new one for your MS Teams channel.

Creating a Flipgrid Tab

Go to your Microsoft Team account either via teams.microsoft.com or the Microsoft Teams desktop app, then follow these steps to create a new Flipgrid Tab.

- 1 Select a pre-existing channel in your team or create a new one.
- 2 Select the plus button (+) to the right of your channel's existing tabs in the upper-right corner of the Teams window.
- 3 Scroll to **Flipgrid** in the **Add a tab** modal and select the Flipgrid logo.
- 4 Enter the Flip Code of the Grid or Topic you would like to connect to this channel. Once it's located, select the **Save** button. **Note:** You can find the Flip Code by going to admin.flipgrid.com and selecting the share button
