

# Flipgrid for Student Voice

\$0.00

Microsoft provides this free and accessible with Microsoft and Google accounts.

It can be used with any browser, Chromebooks, and mobile devices!

SOME NEWER  
FEATURES

# What is Flipgrid?

**Empower every voice**

- It is an open platform for audio and/or video discussion posts
- A browser-based tool with screen-recording and picture-in-picture
- Video recording features with easy editing
- A great tool that educators and students can use...
  - Storytelling
  - Content discussion
  - Demonstration and tutorial
  - Reflection
  - You name it...

## Create a learning topic

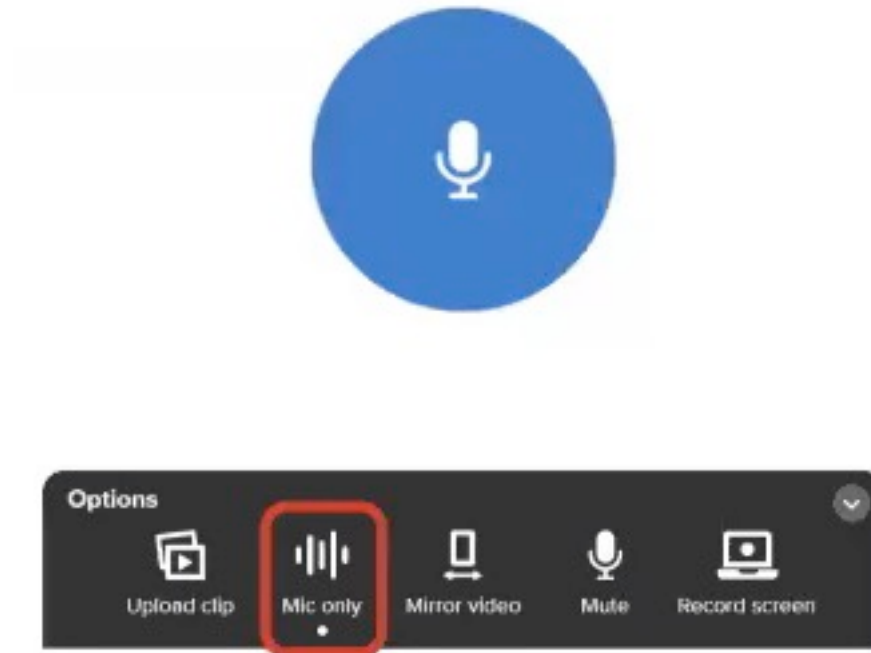

- When teachers post a topic (with text, voice or video)
- Learners (students) can respond using their voice, and/or with video
  - *This is one of the best audio and video recorders online*
- Students can share their thoughts and ideas
- Two-way asynchronous communication

# Compatibility across other platforms

- Create a FlipGrid group and map it to your Google Classroom Roster (map the group), or Microsoft Team, and then students can log in with their google or Microsoft account.
- *They are looking at doing this with Schoology, Canvas, Blackboard and other platforms.*
- FlipGrid discussions can be shared or embedded in any platform.
- You can share the link out to your post in a lot of ways...

# Microphone Only Mode (added Dec 2020)

**Also note: Immersive reader is built-into Flipgrid. Access the icon on the recording.**

# Video Recorder

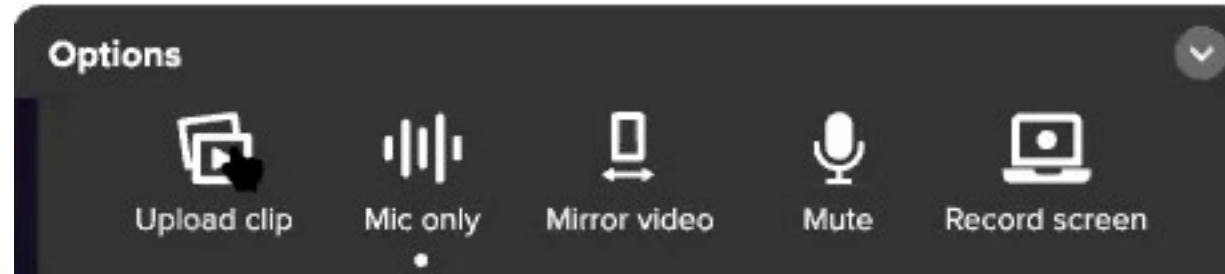

- Create your topic
- You can select to add a media resource
- Select record a video (video recorder icon)
  - This works GREAT in Chrome, recording in the browser window
- Options are available for
  - Filters, Frames, Emojis, Text tool, Draw, Board (and can do a split screen), Photo

## Media

Add a media resource to engage your students.

# Edit the video

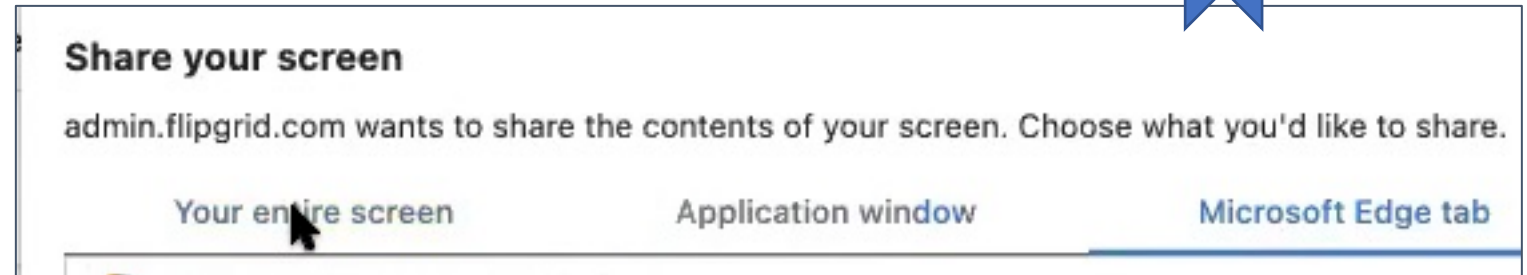

- You can set the time limits for a student recording
- Edit, trim, move them around, and edit.
- This is all done in the browser window and can be done on a mobile device.
- In Options is where you find the new Audio (Mic) only mode for shy students or privacy
  - You can also record additional video clips.
  - You can mirror video, record the screen, or mute your mic

# Record the Screen

- Records the screen from your screen or
- Application window or
- Microsoft Edge tab

- You can do Picture-in-Picture when recording!

# Confirm Your Cover Photo

- It creates a cover photo for your recording or response

Select frame

Take selfie

Upload photo

Add nametag

---

# Classroom ideas with the camera

- [Flipgrid Camera: features and effects](#) (9:19)
  - Includes tons of ideas for the classroom
  - ... features
  - Mirror effect for students to hold up their work for others to read
  - Effects for filters such as pixel mode, or guess who
  - Emojis for visual supports, math symbol stickers and much more including ASL
  - Annotate onscreen, add text
  - Board feature with split screen
  - Upload custom stickers and photos

# Essentials

## Essentials

### Topic Moderation

New videos and comments will be hidden from students until you activate them. Previously submitted content will remain active.

[Learn more about moderation.](#)

### Comments

Students can respond to other students using video and text comments.

Video and Text Comments

### Recording Time

1 minute 30 seconds

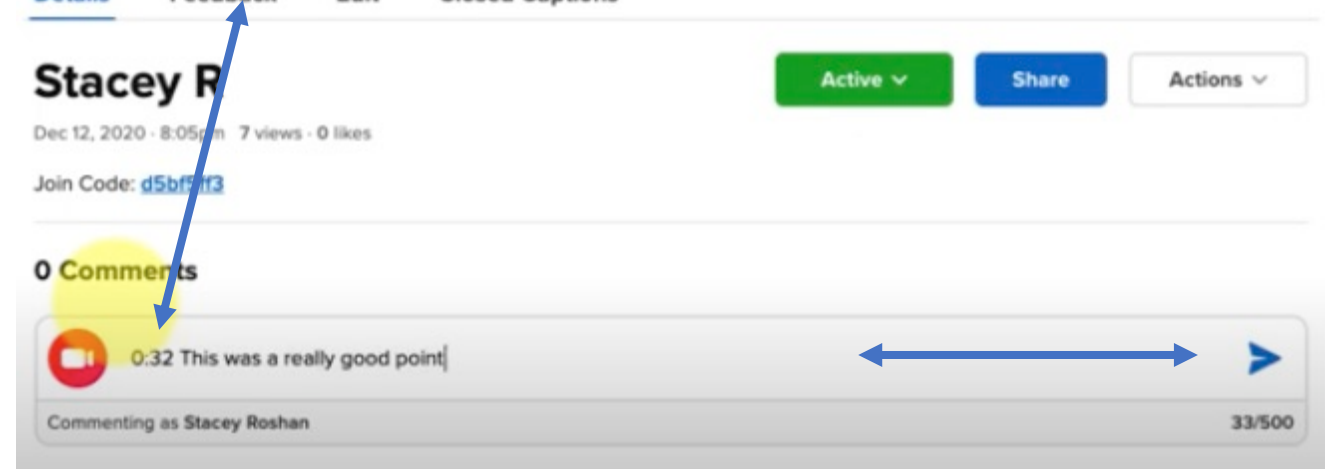

### Closed Captions

English (United States)

*Closed captions – it would be great to be able to download it with closed captions translated selected so the video download is in that language. This is under consideration by their design staff.*

# Timestamps

(new Dec 2020)

- Open your recording
- You can add a timestamp to text comments to a video taking the author or anyone viewing the comments to a specific spot in the video.
- Use Timestamp to leave a comment on a specific part of the video ([video demo](#))
  - Students can do self-critiques, teachers can provide time-stamps to specific directions or parts
  - Provide a link to the timestamp
